

# VIDYASHREE MUROOR

## FRONTEND DEVELOPER | REACT.JS | E-COMMERCE

Leamington Spa, UK | +44 7311 033458 | vidyam.wagle@gmail.com

Portfolio: [portfolio-vidyashreemuroor.vercel.app](https://portfolio-vidyashreemuroor.vercel.app) | LinkedIn: [linkedin.com/in/vidyashree-muroor-424022a6](https://linkedin.com/in/vidyashree-muroor-424022a6)

### PROFILE SUMMARY

Frontend Developer with 6+ years of experience building and enhancing e-commerce and web applications. Skilled in React, JavaScript (ES6+), HTML5, CSS3 and Sass, with experience developing reusable UI components and integrating REST APIs. Collaborates with clients and Customer Success to understand requirements and deliver website improvements as part of Agile teams.

### TECHNICAL SKILLS

Frontend: React, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap

Development: React Hooks, Context API, reusable components, responsive design, mobile-first CSS, cross-browser compatibility

Integration and delivery: REST APIs, Git, GitHub, debugging, performance optimization, lazy loading

### PROFESSIONAL EXPERIENCE

#### Front End Developer | Powerweave Software Services Pvt. Ltd.

*June 2024 - Present | Remote, UK*

- Developed and maintained B2B websites on the eWiz SaaS platform, implementing frontend features and client-requested site updates.
- Served as a senior development resource, joining client requirement meetings with the Customer Success team and implementing agreed changes on the site.
- Built product search and filtering using React state and REST API integrations to improve the on-site search experience.
- Refactored JavaScript and CSS into reusable React components, reducing ongoing development time by an estimated 30%.
- Investigate production defects and performance bottlenecks, and work with backend and QA colleagues to deliver fixes through Agile sprints.
- Apply responsive design, cross-browser checks, code splitting and lazy loading to support usability and application performance.

#### Associate Web Developer | Powerweave Software Services Pvt. Ltd.

*March 2022 - May 2024 | Remote, India*

- Built responsive e-commerce interfaces with React, JavaScript, HTML and Sass, working from new designs and existing applications.
- Translated UI/UX wireframes and Figma designs into reusable React components.
- Implemented product filters, cart updates and form validation with React Hooks and component state.
- Integrated REST APIs for product data, authentication and order management, including loading, error and data-transformation states.

- Worked with designers and backend developers in Agile ceremonies and maintained layouts across mobile, tablet and desktop.

### **Web Designer | Avencore Tech Consultant**

*October 2021 - February 2022 | Remote, India*

- Designed website pages and implemented their layouts using HTML and CSS.

### **Career Break - Maternity Leave**

*October 2019 - September 2021*

### **Associate Software Engineer | OMNION Premedia Pvt. Ltd.**

*August 2018 - September 2019 | Bangalore, India*

- Designed user interfaces for orthodontic applications, enhancing user experience and clinical efficiency.
- Contributed to application development using HTML, CSS, JavaScript, and jQuery.
- Collaborated with team members to build and refine features, ensuring alignment with clinical needs
